***The end and/or finish time of the event is only a projection. On Race Day, race cars are released from the Start Line approximately every 4-5 minutes. With the current field size and no red flags, the race would finish at approximately 2:00pm. However, over the past 5 years there have been an average of 2-3 hours of stoppage time (due to racing incidents, spectator issues, weather, etc.). The average time from the first green flag to the end of the race is 9 hours.*
